VISION

FELDA as an economic driver that generates high income to the settlers and surrounding rural area

MISSION

Improve the well-being of the settlers through:

- High smallholders productivity
 - Providing modern facilities and Infrastructures
 - Increase the potential and quality of human capital
 - Creating a culture of innovation and creativity
 - Diversify economic resources in order to generate higher revenue
 - Enhancing the development of second generation
 - Strengthening world class management
 - Nurturing excellence as a culture
- 

112,635
settlers

FELDA ESTABLISHMENT

The Federal Land Development Authority (FELDA) was established on 1st July 1956 under the Land Development Ordinance 1956 with the objective to eradicate poverty through land development and resettlement of rural people.

Since 1958 to 1990, a total of 112,635 settlers have been placed in all FELDA schemes. From 1996 onwards, the government no longer channels annual budget to FELDA and believes that it has the credibility to stand financially independent and hence becomes a statutory body that generates its own income through diverse business activities.
